

**unleashing  
human  
potential**

over employing  
human resources

**diversity  
and dissent**

over conformity  
and consensus

**purpose  
and trust**

over command  
and control

**contributions  
to networks**

over positions in  
hierarchies

**growing  
leaders**

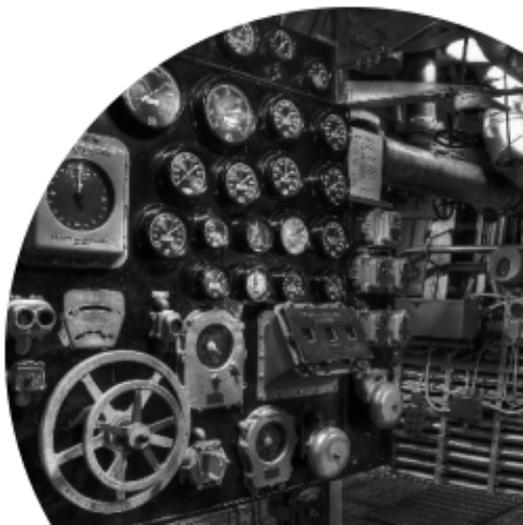

over leading  
followers

**courageously  
exploring  
the new**

over efficiently  
exploiting the old

**thank you ...**
